HELP ME PHONE APP

Emergency App
Introducing the Daniel Morcombe Foundation ‘Help Me’ app. A great way to not only help keep kids stay safe, but people of all ages, from 7 to 97, covering all personal emergency situations!

Help me!
Ideal for everyone including:
- Children and youth
- Elderly & seniors
- Shift workers
- Recreational enthusiasts
- Pregnant mums
- People with medical conditions
- Holiday makers
- School camps
- Backpackers

Major safety features
The ‘Help Me’ button sounds a warning and allows you to send off an SMS text to two (2) nominated ‘safety’ numbers, as part of your Trusted Safety Network. Included in the text are GPS co-ordinates from where the text was sent, so the sender can be located or a last known place of contact is indicated.

Creating your safety network
...it’s easy!
Mobile phone numbers for your ‘safety’ numbers are easily obtained from your Contacts with a simple manual check and upload of the numbers. These numbers form part of your Trusted Safety Network and can be simply changed at any time by going to the Settings menu item and updating your desired numbers. This is particularly helpful when people are not in your immediate area, there are shared parental responsibilities or someone could be away on holidays for a period of time.
